

Smart Board Technology

The **Bubbles ♦ Burbujas** technology piece is an exciting and interactive option for classroom teachers to enhance instruction by using their Smart Boards or Promethean Boards.

The poster version of each of the four Bubbles and Burbujas series is Available for download at your campus.

Eligible teachers will be given a password to access and download the file during a 1-week window. An 'End-User License Agreement' will come up first on the menu. When the teacher clicks on the 'agree' box, he/she can access the home page with the song titles. Each full-color page will have the song lyrics and a speaker icon that teacher/student can click on to listen to the song and to **READ & SING ALONG!**

(2) Cross-curricular second language acquisition/listening. The ELL listens to a variety of speakers including teachers, peers, and **electronic media** to gain an increasing level of comprehension of newly acquired language in all content areas. ELLs may be at the beginning, intermediate, advanced, or advanced high stage of English language acquisition in listening. In order for the ELL to meet grade-level learning expectations across the foundation and enrichment curriculum, all instruction delivered in English must be linguistically accommodated (communicated, sequenced, and scaffolded) commensurate with the student's level of English language proficiency. The student is expected to:

90(E) use **visual**, contextual, and linguistic support to enhance and confirm understanding of increasingly complex and elaborated spoken language (K-8)

99(F) listen to and derive meaning from a variety of media such as **audio tape, video, DVD, and CD ROM** to build and reinforce concept and language attainment (2-8)
